**Bill Kroen's
GOLF TIP-A-DAY™**

Speed up that putting stroke.

Many putts are missed because of a lack of acceleration through the ball. Putts either come up short or break out of the hole because they do not have enough speed to hold the line. Try some drills to improve acceleration. Set a ball on a slight upslope about two feet from a hole. Place your putter directly behind the ball. With no backstroke, simply push the ball into the hole. Repeat this about ten times in a row. When you return to your normal putting stroke, you should notice more acceleration in your putting. Place an alignment rod perpendicular to your line for a five-foot putt. Stroke your putt so that the ball jumps over the rod and continues to the hole. Do this drill before you play your round, and it will help you throughout the day.

MINDFULLY OFFSETTING OUR ENVIRONMENTAL IMPACT

WE PLANT TREES—more than ONE MILLION and growing!

Amber Lotus Publishing has been planting trees since 2009 to offset our carbon footprint and resource usage. As of January 2024, we will have financed the planting of 1,251,000 trees through our partnership with Trees for the Future, a nonprofit organization that provides resources and training for farming communities in five countries in sub-Saharan Africa.

NO SINGLE-USE PLASTIC

To reduce plastic pollution, we have eliminated single-use shrink wrap on our wall calendars.

SUSTAINABLY SOURCED

We use Forest Stewardship Council® (FSC®) certified paper. This label means the paper is sourced from wood harvested from socially and environmentally sustainable forests. We also use environmentally friendly soy-based ink.

CARBON OFFSET

One of the many advantages of planting trees as an offset strategy is that trees remove CO₂ from the atmosphere on an ongoing basis. Trees for the Future estimates that the 1,251,000 trees we have planted will eliminate 45,200 metric tons of CO₂ over 20 years.
