Dear Partners, Customers, and Readers:

This year, 2024, marks a celebration as Schiffer Publishing observes its 50th anniversary. What began as a serendipitous discovery of research in a basement in 1973 has blossomed into an enduring legacy of expert knowledge and high-quality publications. We owe our very existence to the dedication and vision of Peter and Nancy Schiffer, whose work laid the foundation for our humble beginnings.

Over the years, we have grown and evolved, expanding our catalog and range of imprints to include a wide range of diverse areas of interest. None of this would have been possible without the unwavering commitment of our incredible team. To all those who have been part of our story, we extend our heartfelt gratitude.

To our esteemed authors, we extend our deepest appreciation for your partnership and expertise. Your dedication to sharing your knowledge with the world has inspired countless readers and enriched lives with wisdom and creativity. You are the heart and soul of every one of the 7,000 publications we have produced; we thank you for trusting us with your knowledge. You have inspired so many readers and enabled us to become what we are today.

To our valued partners, customers, and readers, we thank you for your unwavering support. Your curiosity, enthusiasm, and eagerness to learn have fueled our passion for creating books that stand the test of time. It is your encouragement and trust that have propelled us to push the boundaries of excellence.

As we celebrate this milestone, we fondly remember the countless stories of success, growth, and inspiration that our books have brought into the lives of so many. From the converted barn where we began to the "Book Farm" in Atglen, Pennsylvania, our journey has been one of constant evolution and improvement.

Today, we embrace the future, knowing that the years ahead hold boundless opportunities for us to continue inspiring through expert knowledge. Our commitment to providing you with high-quality publications remains to support your unique interests as steadfastly as ever.

Here's to 50 years of excellence and growth, and to the many more years ahead. Together, we will continue to create a lasting impact in the world of literature and knowledge.

With gratitude and warmest wishes,

PETE SCHIFFER

Voynich Reconsidered

The Most Mysterious Manuscript in the World

By Robert H. Edwards, PhD

- This book sheds new light on the mysterious 500-year-old Voynich manuscript
- The bizarre symbols and illustrations in the book do not belong to any known living or extinct language
- This book is for anyone fascinated by ancient languages and mysteries

A detailed mathematical analysis into the mysterious Voynich manuscript—undeciphered since its creation in 15th-century Europe—and a guide to aid readers in finding the manuscript's possible meaning

In this book, Dr. Robert Edwards brings a fresh, mathematical perspective to the Voynich manuscript and sets out a strategy whereby the interested reader could extract meaning from the seemingly impenetrable symbols . . . if meaning is there to be found. The Voynich manuscript has been described as the most mysterious document in the world. In 1637, a Bohemian scholar sent a mysterious manuscript to the celebrated professor Athanasius Kircher in Rome. Kircher promised to decipher it when the mood took him. He never did. Later, antiquarian bookseller Wilfrid Voynich claimed that he had discovered it in 1912 in a castle in Europe.

- Contains hundreds of bizarre illustrations that seem to represent plants, stars, animals, zodiac signs, strange receptacles, and naked women in pools and streams of green water.
- Throughout its over 200 pages are strings of glyphs or symbols that look like words, but the symbols do not belong to any known living or extinct languages.
- No one knows what these symbols mean—or even whether they mean anything, though hundreds of scholars have tried to decipher them for 500 years.
- Today, all that we know for sure is that the parchment probably dates from the early 15th century.
